CANADIAN MONEY HISTORY

# How Canada built its retirement savings, in five dates.

## 1952–2023

Education only, not advice.

# OAS

## Old Age Security

# 1952

**A basic pension for older Canadians.**

Today it is the base layer many retirement incomes start from.

Source: Office of the Chief Actuary, OSFI

# RRSP

## Registered Retirement Savings Plan

# 1957

**A tax break for people with no workplace pension.**

Today it is one common way to build the private layer.

Source: Statistics Canada

# CPP

## Canada Pension Plan

# 1966

**A pension earned through work and contributions.**

Today it adds a layer that follows a person's work history.

Source: Office of the Chief Actuary, OSFI

# TFSA

## Tax-Free Savings Account

# 2009

**Savings that grow without tax on the growth.**

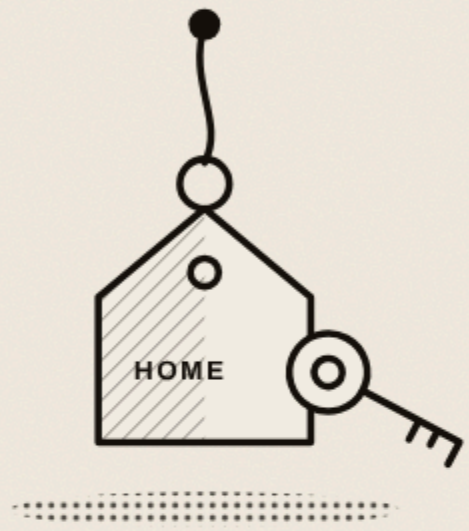

Today it is a flexible place to save beside the RRSP.

# FHSA

## First Home Savings Account

# 2023

In law: after March 2023

**Savings aimed at a first home.**

Today it is the newest account, built for one goal.
